Ascending Scales Part-Time Music Therapist

Music Therapist Description: Our Ascending Scales Music Therapists provide evidence-based music therapy interventions in individual and group music therapy sessions in accordance with American Music Therapy Association's Standards of Education and Clinical Practice, Code of Ethics, and Professional Competencies. In addition, our music therapists assist with program expansion and maintain a positive environment for each family served.

Typical job responsibilities include:

- Providing music therapy for clients of all ages and different abilities.
- Planning and providing individual and group music therapy sessions
- Assessing clients' needs (initially, and periodically)
- Actively participating in music sessions and encouraging clients to do the same
- Exploring a variety of musical styles and sounds with clients through singing, percussion, ethnic instruments, and improvisation
- Maintaining records and documentation
- Reporting progress to families, caregivers, relevant agencies, or professional staff

Required Education:

- Bachelor's (or higher) degree in music therapy
- MT-BC (Board Certified Music Therapist) *or to be obtained within 60 days of hire*

Preferred experience and skills:

- Experience working with individuals with ASD
- Maturity and independence
- Excellent interpersonal skills
- Communication skills
- Musical ability on several instruments
- Creativity
- Flexibility
- Ability to work with a population consisting of diverse ages and abilities
